

# Calling All State Workers To Get Active

An active, strong union means better pay, benefits and security

Outside organizations funded by billionaires want to **slash pay, strip pensions and benefits and outsource our jobs** to the lowest bidder for their profits.

When they tell us to drop the union, we redouble our efforts and **Get Active** to strengthen our unions. Active union members are educated by **attending local meetings and trainings, becoming stewards in the workplace or volunteering to be a member organizer.**

Visit [www.afscmefl.org](http://www.afscmefl.org) and **Get Active** today to make progress for your career, family and community.
