## Dev Workshops

Health Workshop - Info Day. *Classes and Education.*

## Volunteer Services

We will need volunteers for running classes, booths, set-up and tear downs, outreach, donation finders, and more.

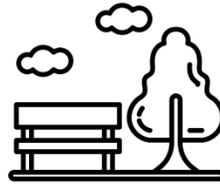

# LOCATION IDEAS

We as unions have buildings that are owned and operated from Union organizations these would be great storage spots as well as event gatherings.

Hmong international academy is a school that is a part of different unions and would love to participate as a location for events and storage.

We also have options of local parks recreation centers that we can rent out or request donations for.

# NEXT STEPS

To create a mutual aid we will all need to unite together for our community and our union members alike.

## Step one

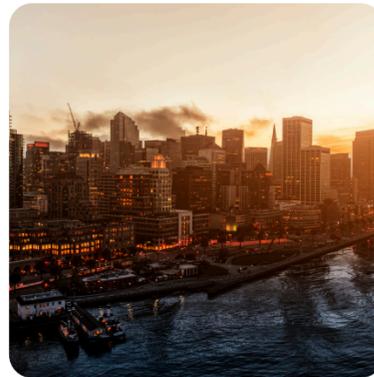

Present to our local union

We as representatives of **MULP**, have learned that to create a mutual aid project we must work together not just ideas but resources as well.

## Step 2

Discuss donation options

Each Union would be requested to donate both time and funds. Meaning we are looking for a donation for of time and funds to make this mutual aid happen, we must discuss what are unions are comfortable with.

## Step 3

Bringing everyone together

As the leaders of this creation we will have to combine and schedule for a coordinated action team for planning purposes of making this mutual aid happen.

# STRATEGIES

## 01

### Planning

Creating a cat team for this project will help us meet monthly or by monthly to get the first couple events going.

## 02

### Gathering

We will have to reach out to not just small businesses of the area we are trying to reach out to, but we will also need to gather donations from Costco Sam's club items for household and food.

## 03

### Creating the dates

We are hoping this will be a quarterly event, we should give a 6-month start to planning to gather donations for the first event, I'm going events we should have leftover supplies to carry over .

## 04

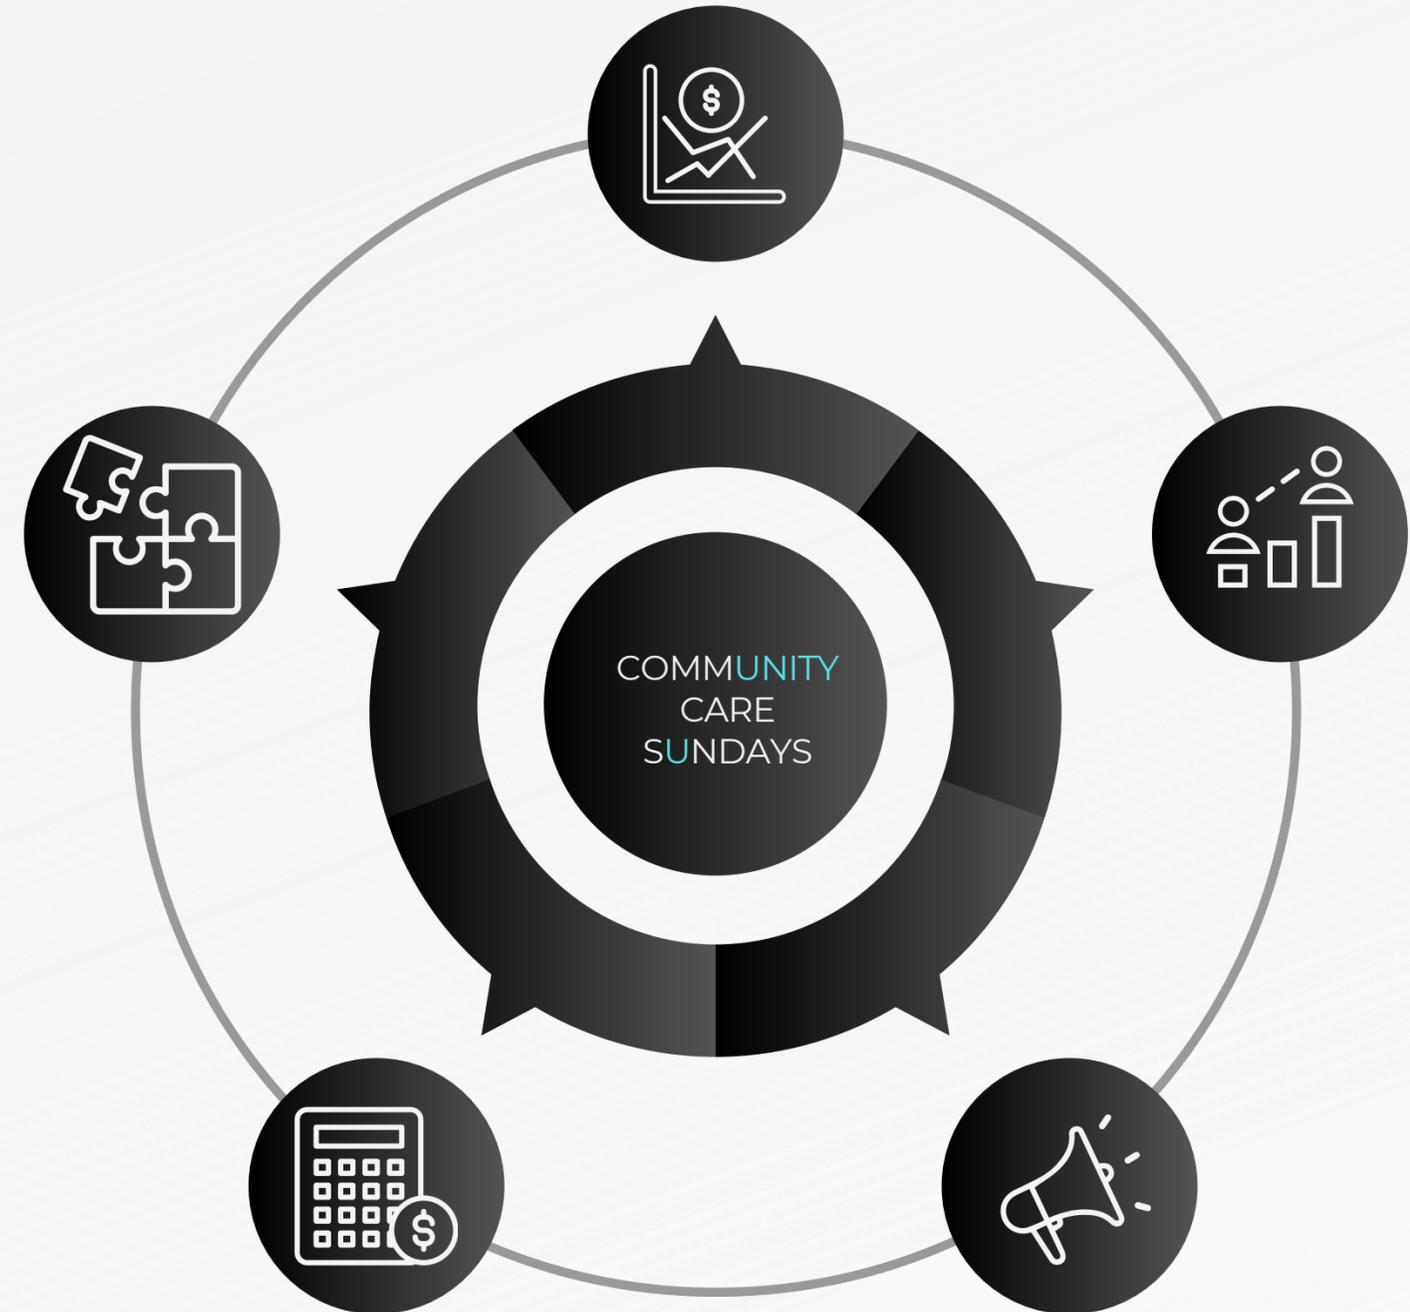

### Execution

Once we have a location and date picked we will need to advertise and plan for volunteers during the event from each Union involved.

## 05

### Growth

We can make this mutual aid happen. We have the power we have the resources. We need to unite together to make this dream a reality.
