

SOLID WASTE, GETTING THE JOB DONE!

AFSCME HOPE Local 123 Solid Waste Wins

A Seat at the Table

Because we made our voices heard, we now have bi-monthly meetings with management in which we can voice our concerns and help come up with solutions

Stronger Together

Together, we have won bi-monthly meetings with management, mandatory overtime is decreasing, the privatization study has been ruled out, and we will have 69 new trucks by November! This is a great start, but we must continue putting pressure on the Mayor and Solid Waste Management to always improve our workplace. Take action today by becoming a HOPE Local 123 Member.
