

FINANCIAL DUTIES OF OFFICERS

INTRODUCTION

The Secretary-Treasurer of a local union performs many financial duties. Whether the individual is depositing a check, reconciling a bank statement or completing IRS forms, each duty is extremely important. The President and Executive Board also have financial responsibilities. The President, as a second signature, verifies that payments are for approved expenses only and that supporting documentation is maintained for all payments. The Board approves expenses, adopts policies, and monitors the union's financial condition.

This manual, together with the course lecture, is designed to aid in these tasks. Through detailed explanation and examples, the union's financial officers should be able to easily understand and carry out the most necessary functions of their office. Ideally, though one profits the most from using the manual after attending an educational workshop; the manual is also geared towards self-instruction.

The International Union's Constitution and Financial Standards Code establish specific requirements that all AFSCME affiliates must follow. The duties listed in this section allow officers to accomplish these mandates. The International Union intends that this manual be used as a reference guide. The manual can also be updated as new financially oriented mailings are received from the International Union.

We hope that the Secretary-Treasurer Educational Workshop Manual makes the job easier not only for the Secretary-Treasurer, but for all the union's financial officers. Should further questions arise, please contact the International Auditing Department at (202) 429-5032.
